Control all connected
Somfy devices via
smartphone

Connectivity kit

Control Somfy devices via smartphone.

Digital remote control + mobile app

FEATURES

- **Control via smartphone app**
- **Programmes:**
 - Control devices individually or in groups
 - Manually adjustable scenes
 - Capacity: 20 scenes
- **Compatible products:**
 - Capacity: 20 devices
 - Indoor and outdoor blinds, awnings, gates & garage doors, roller shutters
 - Lighting
- **Protocols:**
 - io homecontrol and RTS
- **Voice control**

BENEFITS FOR CONSUMERS

- **A simple solution** for easily controlling Somfy devices in the home. The convenient choice!
- **Control connected Somfy devices with smartphone or voice.*** For example, close all shutters in the house with a single tap on the smartphone, without even having to get up from the sofa. No more walking around the house to close each shutter individually.
 - On sunny days, monitor and control the blinds from anywhere to keep the house cool (io only).
- **Make your life easier** by creating personalised scenes. For example, select 'Wake up' on the smartphone to open shutters and turn on lights in the morning, or select 'Leave' to close the gate and garage door when leaving home.
- **Use a smartphone or voice commands** to control a device or group of devices.
- **No more searching for the remote control.** Each member of the family has their own separate remote control: their smartphone.

BENEFITS FOR INSTALLERS

- Offer your customers a solution to easily monitor and control their Somfy equipment.**
- Control individual devices or groups of devices with a smartphone or by voice command.

The Connectivity kit is compatible with

* Additional device required for voice control.

** Blinds, awnings, gates & garage doors, roller shutters
