Why Choose JDUK Door Systems?

We are specialists with over 20 years of experience, providing homes all across the UK with the best quality products from around the world, brought to you exclusively by JDUK Door Systems.

We provide unique door systems for all applications with one of the largest standard RAL palettes on offer. Alternatively choose any special RAL or for a totally unique finish you are spoilt for choice with colours such as Farrow & Ball and Little Greene Paint! Endless design options allow you to create a bespoke door to suit your exact requirements that will perfectly compliment your home.

For JDUK Door Systems safety and quality are not simple words, they are founding values within our business. We offer a range of door products and components that are fully compliant with all relevant safety standards, enabling you to place your trust and confidence in us. JDUK is also a proud and contributing member of the Door and Hardware Federation.

Unparalleled Service

JDUK Door Systems are synonymous with the best unrivalled service that customers could wish for. The difference is JDUK strive to exceed your expectations every time.

Globally Sourced

We bring you the best available products from around the world ensuring global leading products are sourced and available for you and your home right here in the UK.

Expansive Options

We provide one of the largest range, styles and colour options in the UK. Choose from a near endless list of options to ensure you design your home entirely your way.

Secure Your Home

Our entire range are fully accredited with manufacturing, operational and functional approved certifications.

Safety Is Paramount

JDUK Door Systems take pride in supplying only the best quality products ensuring maximum safety and protection for your loved ones.

All-In-One Solution

We can source and supply everything you need to perfect your home from garage doors, automation, hinged doors, entrance doors, pergolas and awnings.

Introducing Premier-Line

The New Garage Door Standard

Obsessively designed and exclusive to JDUK Door Systems. The Premier-Line sectional garage door provides that unnerving and unbeatable combination of high end standard specification, mind bending product and colour choice and the confidence that the secure and safe functionality will protect what you choose to store in your garage. Your home is yours, designed in your own image. Premier-Line sectional doors now provide you with that impactful final piece of the design jigsaw, that will have the most conservative of neighbours gazing on enviously.

High Performing Thermal Efficiency

Premier-Line doors are all about thermal conductivity. Premier-Line systems eliminate heat loss in the most affected areas of the door leaf allowing the door to maintain optimum temperature inside your garage.

Your Choice Is Our Passion

Colour is the first feature our senses react to. Premier-Line sectional doors can be manufactured in any standard RAL or specialist colour. Combined with a range of panel textures it can provide the homeowner hundreds of options for a totally bespoke design.

Function & Safety

High levels of standard safety specification ensure that the Premier-Line boasts the complete package when combined with the Select-Line or High-Line automation.

Efficiency In Design

Sectional garage doors boast several benefits for home owners providing a wider opening for easier car access. The door is sealed all around making insulation highly effective. U Values are detailed on page 13.

Have It Your Way

Premier-Line offers choice in every aspect however we make selecting your choices easy. Panel designs, textures, glazing and automation can all be specified and colour matched where necessary to complete your vision.

The Premier Promise

Meticulously engineered to the highest of standards. Premier-Line products are created with the perfect balance of form, function, strength and security. This is our promise from factory to fitting.

Functionality & Assurance

Challenging Tradition

Obsessive attention to detail begins where you would expect. From early as conception through to final design the Premier-Line was conceived as a range of doors to provide standard features that challenged the traditional specifications of the competition. Attention to detail from pencil to production has guaranteed that the entire manufacturing process produces an end product that meets with your highest standards of satisfaction.

It is a promise of the highest quality, safety and comfort at each stage of use. Premier-Line conforms to EN 13241-1 as standard and boasts the obligatory CE marking of quality manufacture.

Stamp of Approval

Don't just take our word for it! Only high-quality and durable long lasting materials are used in the fabrication of the Premier-Line garage doors. Fully inspected at every stage of production with an intense focus on quality.

Premier-Line provides you with an added layer of protection ensuring that you the customer achieves a complete level of product satisfaction with a 10 year safe and reliable operation warranty.

Burglary Protection

Upon closure the Premier-Line door is designed to protect what is inside. Both the Select-Line or High-Line Automation applies additional resistance protecting the door from being forced open.

You can be rest assured that everything that is important to you is well protected behind Premier-Line.

- ✓ Secure and safe
- ✓ Protection against unwanted entry
- ✓ Walk away with confidence

Safety As Standard

Force monitoring ensures in the event of the slightest resistance during operation the automation detects abnormal pressure and reverses the direction of the door keeping everyone and everything safe.

Finger protection provides safety for you or your loved ones and eliminates fingers being pinched between panels when opening and closing the door.

- ✓ Finger protection
- ✓ Force monitoring
- ✓ Safety first

Tension Springs

Premier by name, Premier by standard.

Premier-Line tension springs are designed and manufactured with an inner and outer spring. This provides added safety protecting your family, pets and valuable belongings and preventing unwanted injury or damage.

- ✓ Innovative technology
- ✓ Family protection
- ✓ Damage prevention

Track Systems

Premier-Line is 'made-to-measure' and this also extends to our track systems. Similar to the door leaf, the track system is produced individually for you. We have a solution for any application and the quality does not stop here. Our Premier-Line promise is that the system will operate effortlessly and smoothly in even the most demanding of environments.

Premier-Line offers side tension springs on doors up to 5500mm wide, no requirement for unsightly torsion spring systems internally.

Quality is found in the smallest detail. Premier-Line tracks are fitted with the patented "Smart Connection" system.

Unlike many of our competitors we take into consideration the smooth and silent movement of the rollers in the tracks. This follows hours of field and laboratory testing, a source of obsessive pride.

The side roller hinges are the same as those used on industrial doors and as such are designed to withstand much greater forces than residential applications could exert. This robustness guarantees a long life span for Premier-Line doors. The track systems are fully bolted and the thickness of the steel used ensures that the quality you expect as part of your home is built to perform with pride.

Coated Tracks & Hardware

Available as an added piece of aesthetic luxury, Premier-Line options ensure the perfect match with the inside colour of your design. As an optional extra we can powder coat and colour match the tracks using the unique IGP-Powder Coating System.

In addition to the coated tracks you can choose to have the hardware finished in white. The coating for both tracks and hardware helps to protect the metal components from corrosion caused by damp and extreme weather.

Aluminium Frame

Premier-Line can offer a versatile aluminium frame which is a great alternative to timber. This allows for perfect positioning of the sectional door frame when installation between the aperture is required.

The aluminium frame is supplied with a two-part vertical frame section and a connecting header section. The frame can be colour matched to provide harmony with the door leaf.

In summary this provides style, strength and pleasing aesthetics.

Profile Systems

Premier-Line doors are available with a unique profile system if required. Specifically designed for JDUK Door Systems this enables a perfect finish for doors installed within the aperture, enhancing the holistic look and design of your garage door.

This unique profile system enables installation of a sectional garage door in a garage aperture regardless of the building quality. Even garages without side clearances or lintels are therefore easily made compatible for a new sectional door. Enhance the functionality and aesthetics of your garage with our bespoke and unique profile system!

Smooth

Premier-Line

L Ribbed

For many people the Premier-Line L Ribbed panel design is the perfect complimentary choice to enhance the kerb appeal of your home. The large horizontal rib of the panels provides both a stylish and contemporary aesthetic. A reason why L Ribbed resonates with so many making this design one of our most popular.

Premier-Line is supplied with a pre-assembled vertical track system and pre-tensioned springs, enabling efficient installation.

A range of panel textures exclusive to the L ribbed panel design providing unique aesthetics. Granite, Quartz, Corten, Nero and Antro are available. Please see page 14.

Premier-Line offers side tension springs on doors up to 5500mm wide, this removes the requirement for unsightly torsion spring systems internally.

Similar to the door leaf the track system is produced individually for you. We have a solution for any application allowing the system to operate effortlessly and smoothly.

Have It Your Way

Personalise your Premier-Line garage door from a choice of additional options, available on pages 32-35.

Premier-Line doors are available in a wide range of RAL colours. For all colour options please see pages 30-31.

L Ribbed panels are available in a choice of Smooth, Woodgrain or Stucco texture and all colour options. For a totally contemporary finish L ribbed is also available in Granite, Nero, Antro, Quartz and Corten texture. See the panel texture options to help you choose on page 14.

M Ribbed

M Ribbed door panel sets are designed with a medium horizontal rib to provide the correct blend of aesthetic for pairing with modern day architecture and home design.

Additionally you can have the internal hardware coated in white to match the internal door panel colour RAL 9016. This provides a seamless interface whilst adding that extra special touch.

The Premier-Line track system is equipped as standard with the patented “smart connection” system allowing for smooth operation.

Unique RAL colours are available. Farrow & Ball, Little Greene Paint, Dulux and many more can be chosen by special request.

Premier-Line offers a unique operator bracket which eliminates the need to hang the unit from the ceiling, meaning Premier-Line looks as good inside as it does out.

Your Door, Your Design

Personalise your Premier-Line garage door from a choice of additional options, available on pages 32-35.

Premier-Line doors are available in a wide range of RAL colours. For all colour options please see pages 30-31.

M Ribbed panels are available in a choice of Smooth or Woodgrain and all colour options. See the panel texture options to help you choose on page 14.

S Ribbed

The Premier-Line S Ribbed panel offers a modern yet timeless design. Small horizontal ribs positioned evenly through the panel make junctions absolutely unnoticeable.

45 matt fine textured standard RAL's available, including some of the most popular grey shades such as anthracite grey, agate grey and slate grey, with many more to choose from.

Premier-Line offer the option to powder coat the track system which protects against corrosion providing enhanced longevity.

When installation between the aperture is required Premier-Line can offer an aluminium frame. This is a versatile option to allow perfect positioning of the sectional door frame,

Premier-Line use ball raced bearings to protect against dust and moisture within the roller wheel system, providing a smooth operation and longevity.

Create Your Dream Door

Personalise your Premier-Line garage door from a choice of additional options, available on pages 32-35.

Premier-Line doors are available in a wide range of RAL colours. For all colour options please see pages 30-31.

Premier-Line

Georgian

Georgian style panel designs provide a traditional look which is an alternative to our ribbed variants.

Premier-Line doors are available with a unique profile system if required. Specifically designed for JDUK Door Systems to enable a perfect finish for doors installed within the aperture.

Wicket doors are available which provide a practical solution for properties with no other access to the garage. They enable easy access into the garage without the need to open the entire garage door.

Authentic window options are available, such as the georgian cross which can enhance the overall appearance of your Premier-Line sectional garage door.

Spring covers are available to provide added finger protection and improve the internal appearance of the track and spring system.

Tailor Your Door Your Way

Personalise your Premier-Line garage door from a choice of additional options, available on pages 32-35.

Premier-Line doors are available in a wide range of RAL colours. For all colour options please see pages 30-31.

Georgian panels are available in Woodgrain textured only and all colour options. See the panel texture options to help you choose on page 14.

T Ribbed

Even spacing and invisible section transitions are expertly illustrated in the design of the Premier-Line T Ribbed panel. The days of boring, functional metal doors are long gone.

Premier-Line can provide a manual locking system if required. A very secure system which operates with the handle and locking positioned centrally, locking internally to the left and right vertical track.

Side roller hinges are the same as those used on industrial doors and as such are designed to withstand much greater forces than residential applications could exert.

Endless Possibilities

Personalise your Premier-Line garage door from a choice of additional options, available on pages 32-35.

Premier-Line doors are available in a wide range of RAL colours. For all colour options please see pages 30-31.

T Ribbed is available in smooth texture only and all colour options. See the panel texture options to help you choose on page 14.

Microwave

The elegance of the microwave design pressed on the surface of the panels sets the Premier-Line Microwave door apart from the rest of the market. This design exudes effortless chic.

Premier-Line provides an expansive choice of RAL colours. The IPG powder coating system applies a matt fine texture, offering extreme resistance to UV rays with a colourfast finish.

All doors are “made to measure” to your exact specification providing you with exactly what you want. The flexibility we provide in manufacturing your design provides for a truly unique product.

Explore and Design
